

HOMEMADE EXPLOSIVES AND PRECURSOR AWARENESS

TRAINING COURSE OVERVIEW

Homemade Explosives (HME) and Precursor Awareness (AWR-338) provides foundational knowledge on HME and common precursor materials. Participants will define HME and learn to identify common precursor chemicals and materials used to make HME.

COURSE INFORMATION

This one-hour instructor-led training covers the following topics:

- Characteristics of common HME
- Precursor materials and equipment associated with HME production
- Perpetrator use of HME in an attack

This course is designed for groups of up to 50 participants and is intended for audiences such as:

- Critical infrastructure owners and operators
- Public safety officers
- Emergency managers
- Private sector security professionals
- Law enforcement officers
- Security officers

CERTIFICATION AND ACCREDITATION

The Cybersecurity and Infrastructure Security Agency's (CISA) Office for Bombing Prevention (OBP) is accredited by the International Accreditors for Continuing Education and Training (IACET) to award Continuing Education Units (CEUs) for this course: 0.1 CEU

This course is nationally certified by the International Association of Directors of Law Enforcement Standards and Training (IADLEST) organization for in-service Peace Officers Standards and Training (POST).
