Technical Resource for  
Incident Prevention

The **Technical Resource for Incident Prevention, TRIPwire**, is a collaborative, online information and resource sharing portal for the nation’s security and emergency services professionals. Located at <https://tripwire.dhs.gov>, TRIPwire raises awareness of evolving improvised explosive device (IED) tactics, techniques, and procedures, as well as incident lessons learned and counter-IED preparedness information. It combines expert intelligence analysis and reports with relevant awareness products, training opportunities, and videos to help users anticipate, identify, and prevent IED incidents.

### TRIPwire Combats Terrorism

“TRIPwire is exactly the kind of support local law enforcement needs on the Federal level to combat and to interdict terrorism.”  
- Chief William Bratton, Former LAPD, NYPD Police Chief

## IED Threat Information Sharing

TRIPwire provides easy access to key information and resources for the nation’s security and emergency services professionals in one central location.

TRIPwire’s extensive features provide resources to fit a range of counter-IED preparedness goals:

- Use the “My TRIPwire” feature for coverage and analysis of the latest domestic and international IED-specific events and incidents, curated to your selected regions and topics of interest
- Leverage the wealth of explosives-related information and analysis to identify explosive hazards, including IED components and potential terrorist tactics in high-risk operations
- Access critical counter-IED information, such as common site vulnerabilities; potential threat indicators; protective measures; and bombing prevention training, planning, and policy guidance to enhance preparedness
- Use the Domestic IED Incident Map and TRIPwire Weekly and Monthly Reports to understand risks in your community
- Find upcoming Office for Bombing Prevention (OBP) activities in your areas on the “OBP Event Map,” and find out what programs OBP offers to support your bombing prevention preparedness
